AMERICAN NICKEL WORKS,

Camden, N. J., Oct 17 18 89

Hon D. McAdoo, Supt. U. S. Mint

Dear Sir

If you can inform me within a few days whether the Mint wishes me to deliver the 50 ozs. of Large blanks still due to it under my contract, I should be obliged by your doing so.

The Large alloy used for this purpose has no other use, and it must be prepared in time to go through its various processes before the Mint is in want of blanks. Counting on the order being given for the final 50. ozs. (since I have been informed that you want to ask for authority to order it) a heat of the alloy has been made.

There still remain to be delivered to the Mint by me on existing orders

Nickel - copper	5 st. blanks	9.50 ozs.
Brass	1 st. -	1 lb. 10 oz. -

This reckons as delivered the blanks which had left the factory up to last night

The above named 5 st blanks fill my contract; the above named brass fill existing order, and leave due by me on contract 50. ozs.

Yours truly
Joseph Wharton

Hon. D.M. Fox, Supt. U.S. Mint

Dear Sir

If you can inform me within a few days whether the Mint wishes me to deliver the 50,000 lbs. of bronze blanks still due to it under my contract, I should be obliged by your doing so.

The bronze alloy used for this purpose has no other use, and it must be prepared in time to go through its various processes before the Mint is in want of blanks. Counting on the order being given for that final 50,000 lbs (since I had been informed that you want to ask for authority to order it) a part of the alloy has been made.

There still remains to be delivered to the Mint by me on existing orders.

Nickel – copper	5 ct blanks	9.5 oz lbs.
Bronze	1 ct. -	14,100 –

This making as delivered the blanks which had left the factory up to last night.

The above named 5 ct blanks fill my contract; the above named bronze fill existing order, and have due by me a contract 50,000 lbs.

Yours Truly
Joseph Wharton
